Extract of Paras 12 and 13 from the report dated the 11th August 1911 of Sir M. Visvesvaraya, then Chief Engineer of Mysore, regarding Yagachi Scheme:

"12. As remarked above, the Marikanave reservoir was expected to derive from its catchment an average supply of 10,000 M. Cft. annually. The supply actually obtained has been 40 per cent below the estimate. The possibility of increasing the storage by diverting the Yagachi river near Belur from the Cauvery valley into that of the Vedavathi has been carefully gone into. The necessary headworks and tunnel through the ridge for the diversion are roughly estimated to cost about Rs. 20 lakhs. The anticipated yield will probably be about 1,500 M. Cft. only giving a rate of Rs. 1,333 per M. Cft. per annum.

13. Since the water issued from the lake is not likely to give a return of more than Rs. 5 per unit, or Rs. 20 per

million cubic feet per annum, for a long time to come, an expenditure of more than Rs. 400 per M. Cft. is not justfiable. The proposal therefore of increasing the Marikanave storage does not come within the range of practical politics at present.

The rough project, as prepared, is rather ambitious but it may be possible to obtain, from the same source, a smaller supply at a cheaper rate. Anyway, development in this direction is not promising, and it need not be taken into consideration in projecting measures for the immediate future."

APPENDIX VI.

(Reference to Question 30.)

Statement showing the Backward Class Scholarships awarded during the year 1925-26.

Community	No. of scholarships	Amount of scholarship	Community	No. of scholarships	Amount of scholarship

APPENDIX IX.

(Reference to Question 36.)

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Read:—

Subject No. 21 of the Representative Assembly of October 1924 *re.* removal of restrictions for bringing stones from Government quarries for *bonafide* domestic purposes and the reply of Government thereto.

Correspondence ending with Letter No. C. 2565-22-23, dated 1st June 1925, from the Revenue Commissioner in Mysore, furnishing his views in consultation with the Deputy Commissioners in the matter.

ORDER No. R. 276-84—L.R. 149-24-72, DATED BANGALORE, 14TH JULY 1925.

Under rule 19 of the Land Revenue Rules any person may, within the limits of the village in which he resides, remove earth, stone, etc. from the beds of rivers, tanks, and nallas or from any unassessed waste land not assigned for special purposes, without payment of fee so long as he does not interfere with or injure any work of irrigation or cause damage to land used or required for public purposes. To prevent removal of stones for commercial purposes, and to guard against the infringement of the other conditions laid down in the rule quoted above, it has been the practice in some districts to insist upon the obtaining of license for removing the same. The representation is to remove this restriction.

2. The Revenue Commissioner and the majority of the Deputy Commissioners are of opinion that no change in the present rule is called for. It is reported that the residents of the village wherein the quarry exists are given free license to take stones therefrom for *bonafide* domestic or agricultural purposes. Government consider that any change in the rule of practice would only lead to the abuse of the privilege.

3. The member who mooted the subject may be informed accordingly.

K. V. ANANTARAMAN,
Secretary to Government,
Revenue Department.

To—

The Revenue Commissioner in Mysore, (returning enclosures).
The Deputy Commissioner, Tumkur District.
The Deputy Commissioners of Districts.
